"use search in good faith, and your rewards account will automatically be restored upon improvement."

I'll be honest, I'm not sure what part is the problem, just do as they've asked, lol.

Well, considering you basically just said you used a script to do your searches, you've answered that yourself.

Also, you have 3 different Microsoft/Profiles logged in on Edge I can only assume you basically did this on multiple accounts.

Also, you have a VPN extension which you say you don't use for Microsoft rewards, but that's what everyone would say.

Maybe don't break TOS and you won't get restricted.

I don't want to sound naive, but how do you use search in bad faith?

   People use search bots unbelievably. It takes me 5 minutes a day to do all the tasks normally. But then there's folks with multiple accounts basically farming points. I think that's the main reason they've cut the rewards we get. I reckon it's about 2,500 points less a month than it was 4 or 5 months ago.

Wonder if it's the people who search for "yyyyyyyyyyyyyyyyyy" "fldgkjhdfglkjhdgflk" etc everyday that have been flagged.

   Drewqt • 9mo ago

   I've done this every day for over a year and have never been flagged. May be different for everyone but I figure with how much I do it I'd have been flagged by now, so op's case might be something different

Is this the official subreddit? I made a bot to do Rewards stuff for me, including searches, the daily set, and punch cards. Will I get banned from this subreddit for sharing it here?

Nah, I've got 8 accounts. I think I've found a good way not to get banned (doing all of the searches and pcs every day), as none of my recent ones have been banned yet.

I start off light with the searches, then get higher.

I wanna make a bot to make Microsoft accounts for me because that takes up way too much time.

For every MS account, I make sure to have:

- Email
- Password
- US Region
- DOB
- Address
- Address phone number
- Profile picture
- Custom user agent

Not sure if it's by chance, but I haven't been banned on any of my accounts yet. And it's been a few months and I've made over $100.
